Morning Meeting of 18 May 1967

K1 DD/I gave this week's [] report, the conclusions of which remain negative. In this connection, he noted the continuation of probable SS-3 tests (eighteen since 28 March), the lack of information concerning the AN-12's which were scheduled for Hanoi, and the negative information from low-level photography of Haiphong and major North Vietnamese airfields.

In response to an earlier request from the DDCI, the DD/I said that he checked with Aviation Week on its report of missiles in Hanoi and that, while the magazine was uncooperative as expected, he has an assessment ready as requested.

DD/I said that ORR has prepared a memorandum analyzing recent trends in ICBM deployment in the USSR which generally confirms the conclusions of NIE 11-8-66. He suggested elite dissemination, and the Director agreed.
